Short Rise Platform Lift

Short Rise Platform Lift Range provides an elegant solution for applications with a travel of up to a maximum of two metres.

The aluminium and stainless steel construction provides both strength and modern aesthetics, and is easily the most attractive on the market. The ability to tailor the lift to individual requirements and its ease of use, make our products a welcome addition to your home.

Our Short Rise Platform Lift Range consists of 4 products, each with different specifications. If you are looking for a cost effective solution and you require a platform lift with a rise up to 500 mm, the ideal lift for you is the LOW UP Platform Lift. Our Steplift 1000 and Steplift 2000 are the best looking lifts on the market that can travel up to 1 and 2 metres. And finally where temporary wheelchair access is required to stages or mezzanine levels, the ideal solution is our Portable Platform Lift, a unit that can be quickly stored away when not in use.
